

BLADE

1x24x17 Red Dot Sight

Item No.: DSL15RV

Extra small and performing excellence, the NUTREK BLADE Red Dot Sight accomplishes your dream of being a fast-action shooter. Weighing less than 23g (without battery and base mount), NUTREK BLADE adds no weight to your pistol. With the feature of the shake-to-lit function and the rear slot sight, your target is locked instinctively.

OVERVIEW

Feather-Light Build:

Weighs under 23g for ultra-low profile and maximum agility on your firearm.

Shake Awake Motion Sensor:

Automatically powers on with movement and powers down after 5 minutes of inactivity to save energy.

10 Brightness Levels:

Fine-tune your visibility with 8 daylight settings and 2 night vision-compatible modes.

Rear Sight Integration:

Built-in rear notch aids in rapid target alignment and instinctive aiming.

Exceptional Durability:

Engineered to withstand 1200G of recoil force—compatible with most high-power calibers.

IPX7 Waterproof Rating:

Confidently operate in rain, mud, or harsh environments.

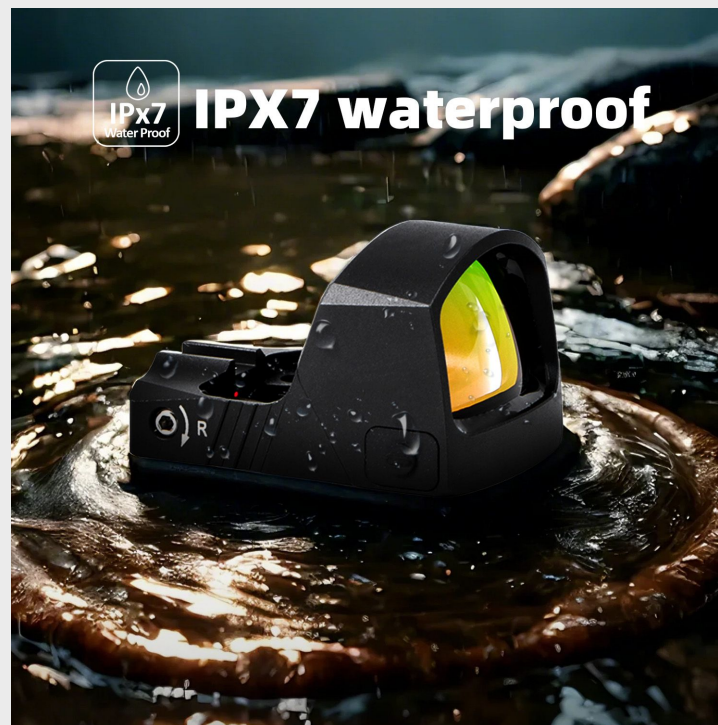

Long-Lasting Power:

Energy-efficient LED provides up to 50,000 hours of runtime on a single CR2032 battery (not included).

Mounting Versatility:

Compatible with Shield RMS footprint and includes a Picatinny/Weaver mount for wide firearm compatibility.
