OVERVIEW

Ultra-Long Battery Life

Equipped with a low-power LED, the TORNA offers up to 50,000 hours of continuous operation on a single CR2032 battery—ideal for extended missions and long-term use without frequent battery changes.

2 MOA Red Dot for Fast, Accurate Targeting

The precise 2 MOA dot enables rapid target acquisition at close range and consistent accuracy at distance—perfect for tactical applications and dynamic shooting scenarios.

10 Brightness Settings for Any Environment

With 10 adjustable brightness levels, the red dot remains clearly visible in both bright daylight and low-light conditions, ensuring reliable performance in all lighting environments.

Durable One-Piece Construction

Built from a single piece of aircraft-grade aluminum, the TORNA features a streamlined body with protected elevation and windage turrets. Shock-rated to 1200G to withstand recoil from rifles and carbines.

Waterproof & Versatile Mounting Options

IPX7 waterproof rating ensures dependable performance in harsh weather. Includes both a 23mm low-profile mount and a 40mm QD high mount for easy installation on Picatinny or Weaver rails.

FMC

Fully Multi-Coated

FMC increases light transmission, reduces reflections, enhances image clarity and protects the lens.

Levels brightness can be adjusted with Brightness dial
