OVERVIEW

Versatile DOT & CIRCLE Reticle for Fast & Accurate Targeting

Equipped with a dual-mode reticle (dot & circle), the VOLCA red dot sight enables rapid target acquisition and precise zeroing, adaptable to close-quarters and mid-range shooting scenarios.

12 Brightness Settings, Including 2 for Night Vision

It features 10 daylight brightness levels plus 2 compatible with night vision gear, ensuring clear visibility in any lighting condition, day or night.

Motion-Activated Auto ON/OFF for Instant Readiness

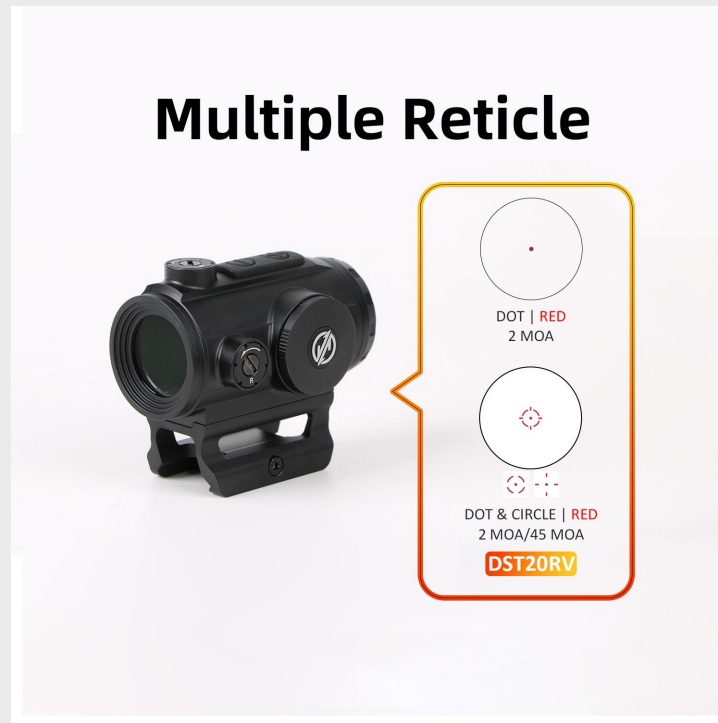

The built-in motion sensor powers the optic on when movement is detected and off when idle, conserving battery life while always staying mission-ready.

Energy-Efficient LED for Up to 50,000 Hours of Use

Utilizes a low-consumption LED powered by a CR2032 battery, offering up to 50,000 hours of runtime—perfect for extended use in the field.

Rugged, Waterproof & Recoil-Resistant Design

Built to withstand 1000G shock, IPX7 waterproof, and compatible with most rifles, carbines, and shotguns. Comes with both low and 36mm high mounts for Picatinny/Weaver rails and an Aimpoint-compatible footprint.

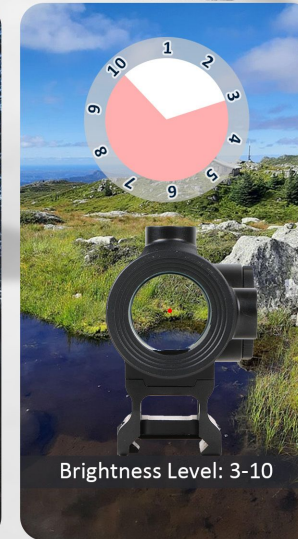

Shake-Awake

Shake-awake function for instant readiness anytime.

Brightness can be adjusted with the top buttons. 10 levels of red dot brightnesses with 2 night vision setting.

1x25 Large objective lens
